

## Child of the month

Nombre/Name: Adan  
Edad/Age: 6  
Fecha de nacimiento/Birthday: agosto/August 22  
Likes playing in the park, piñatas, books, coloring, crafts

Adan is our newest child. He came to the orphanage because his mother lost both her legs in an accident and could no longer care for him. Adan himself has a severe malformation of his spine and needs a series of surgeries to correct it. He does not let his disability slow him down. He runs, plays, climbs trees and in general acts like a normal six year old. Adan loves living at the orphanage and takes every opportunity to tell people so. He has a fun personality, and a contagious laugh. He laughs most of the time, except when he has to eat green vegetables. He HATES green vegetables. Adan is such a

wonderful addition to our family and we are so glad God brought him to us.

Hola Amigos,

We have had a good start to the year here at Hogar Amiguitos. The children just finished their first quarter of school. We are waiting for their report cards, but from the exams they have shown me, they are doing well. It is the dry season, but we have had occasional showers which have helped to keep the temperature down. I feel truly blessed that God has given me the privilege to work and live with these children in this wonderful country.

I am excited to report that I am half way to having enough money to buy a dependable car. Thanks to the generosity of many of you, I have been able to raise \$5,000 towards this need. I considered going ahead and buying a car with what had been given, but everything I found for that price was very old and unreliable. After praying about it, I decided to wait until I had enough to get a newer more dependable used vehicle that I would not have to be taking to the shop every week. This will cost about \$10,000. Thank you to all who have helped me with this need.

Many of you have asked about the progress on the solar/wind system project that we were hoping to start in March. The initial cost of this project is \$20,000. Due to lack of funding the project has been put on hold. I still hope to start this project sometime in the future, and the team from Florida is ready to come down whenever the funds come in to buy the equipment. Thank you to all who have expressed an interest in this project. Please continue to pray that God will provide for this need.

I cannot say enough about how much your prayers and support mean to me. Thank you for continuing to stand with me in this work.

In Christ,  
*Joy Pulsifer*  
Joy Pulsifer

### Prayer needs:

- Health for the children, workers, and myself
- For the children to continue to do well in school
- The rest of the funds for a vehicle
- Funding for the Solar/Wind Project
